Seeing these errors in QT console when running project:
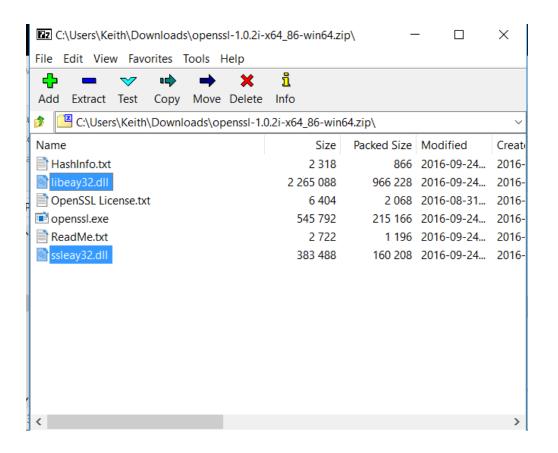

```
qt.network.ssl: QSslSocket: cannot resolve SSL_CTX_set_next_proto_select_cb
qt.network.ssl: QSslSocket: cannot resolve SSL_get0_next_proto_negotiated
int __cdecl main(int,char *[]) ApplicationWindow_QMLTYPE_11(0x2bff4b48c60)
qt.network.ssl: QSslSocket: cannot call unresolved function SSL_get0_next_proto_negotiated
```

Located pre-compiled SSL libraries for OpenSSL.
